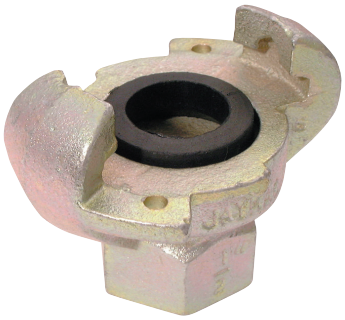
Quick Release Pneumatic Hose Couplings

JAYMAC Industrial Hose & Accessories

SSC Claw Couplings

SS212 Female Thread, BSPP

- Extremely robust, durable coupling of forged steel, hardened, zinc plated and yellow passivated (free of chrome VI), equivalent to type Atlas Copco
- With oil-resistant rubber ring GOER, on request with steam-resistant rubber ring GDOR (up to 200°C) against extra charge
- Maximum bore for maximum flow capacity to reach full tool performance
- Turned gasket seat, therefore 100% tight
- Turned stem profile for perfect fit of the hose
- High quality coupling for compressed air in construction and industry



Working Pressure:
175 psi
