

NITO Safety Couplings

NITO safety couplings are unique quality products specially designed and tested for professional use in connection with hot water and high water pressure.

MAX
25 BAR

MAX
100 °C

Safety Couplings and Nipples give the customer unique safety by the use of hot water

Now it is possible to connect 2 hoses in a very simple way, and to achieve the unique safety of this product. It is impossible to release the quick couplings under pressure, and in this way you avoid burns and water damages due to temperature and water pressure.

Application:

- ▣ NITO Heavy Duty Industry Spray Gun with 1/2" female BSP
- ▣ NITO II Industry Spray Gun with 3/4" female BSP
- ▣ Coupling between 2 hoses – dimension 1/2" and 3/4"
- ▣ All situations where safety is important

Note: NITO Safety Couplings and nipple are not compatible with NITO Original Couplings.

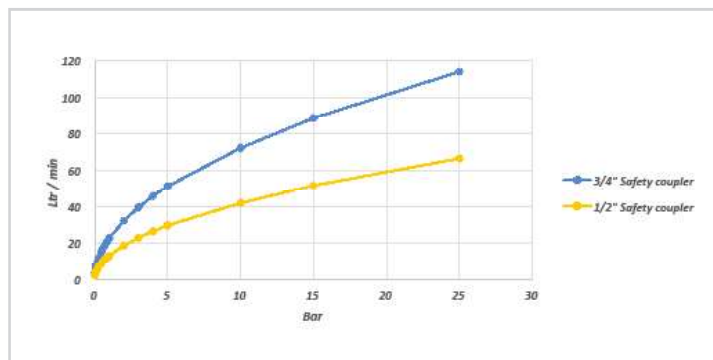

Produced at our own factory in Denmark.

Technical specifications:

1. Nipple: Chromium-plated brass CW614N
