TOOLBASE

WE DELIVER PRODUCTIVITY

The Tool for Tools since 1982

TOOLBASE

TOOLBASE

THE TOOL FOR TOOLS

Your guarantee for economical production
The Toolbase® dispenser systems convince by their reliability and versatility. A well-ordered tool assortment and the secure issuance of resources of all kinds, for example personal protective equipment such as goggles, gloves and clothes, forms the basis of every economic production.

No more standstills with maximum availability
Automated processes ensure tool availability and avoid expensive downtimes. The mature, ERP-compatible Toolbase® software ensures lean structures and efficient workflows. Toolbase® is the ideal tool for tools.

THE
ORIGINAL 4.0

OUR TOOL FOR YOUR SUCCESS

WELCOME TO A COMPLETELY NEW FORM OF STOCK ORGANIZATION
The whole is more than the sum of its parts is true
– thanks to Toolbase®.

The times are past, in which companies can leave success to chance. Work equipment – in our case, primarily tools and PSA articles handled by humans must be holistically captured in a system and precisely controlled for productivity-enhancing use. Only in this way can you really maximize your cost-benefit-factor per tool and employee. Put in a few words: TOOLBASE® is your tool for success – use it.

MORE EFFECTIVE USE

TOOLBASE® SECURES YOUR ADVANTAGE

Toolbase Dispenser Systems

01 Economical

Optimized stocks, no searching and rapid access reduce the costs and increase productivity.

02 Flexible

Dispenser systems individually configurable for every application.
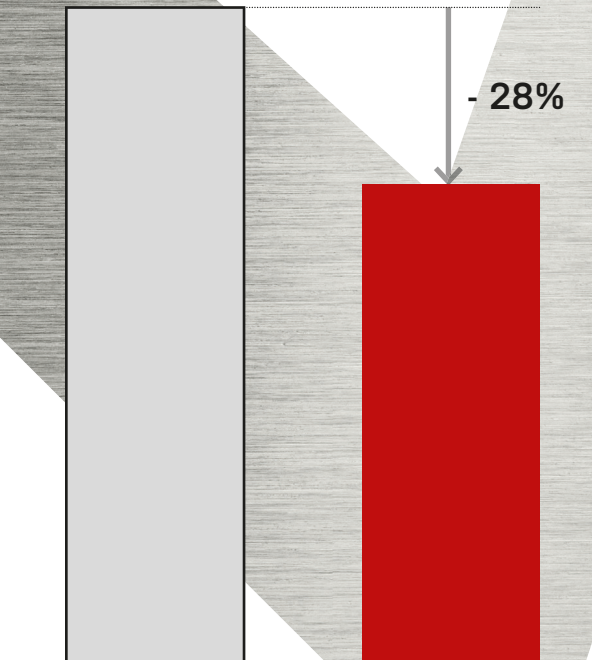

03 Fast

Simple operation, multi-language menu system, custom grouping of articles ensure fast access for all users.

04 Secure

Toolbase® combines the highest level of security with efficient access and automated order management.

05 Clear overview

A well-ordered tool assortment, traceable withdrawals and up-to-date stock information provide a complete overview in every area.
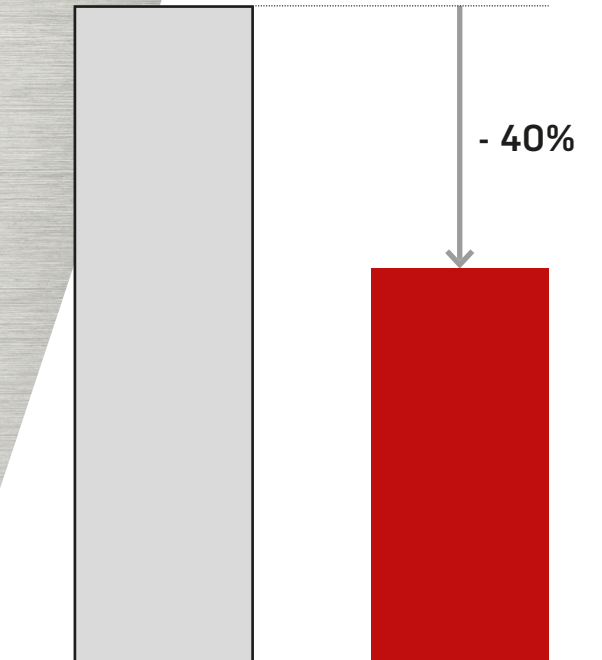

- 28%

- 40%

Reduce your tool consumption by up to 28%

Reduce your process costs by up to 40%

Everything in stock for higher productivity

Toolbase® eliminates inventory inaccuracies and guarantees the exact tracking of consumption data. This makes machine downtime due to missing tools or spare parts a thing of the past. In addition, Toolbase® takes over the data maintenance, replacement and issuance of the articles for you.

• Permanent availability of tools and other resources
• Modular design, can be expanded and combined
• Intelligent software integration
• Controlled withdrawal raises cost-conscious use
• Automatic cost allocation on withdrawal leads to cost transparency
• Meaningful evaluations present the most important key indicators for decision making
• 24/7 availability guarantees supply security
• Connection to other warehouse or merchandise management systems enables efficient logistics processes
• Modular design allows for gradual extensions
• Various, combinable output systems allow the storage of a wide array of different products

Full control in a single system

Time is an important resource, because personnel causes high costs. Especially if that staff is dealing with unnecessary tasks! Toolbase® therefore avoids waste and reduces search times enormously. Furthermore, routine operations are automated and "point of use" deployment is realized – at the lowest travel times and greatest transparency of all processes.

• Consistent system landscape
• Manufacturer-independent
• Computer-controlled access protection
• Cost savings up to 40%

Cost reduction in quality assurance
• Raises employee awareness
• More targeted tool removal
• Lower tool consumption
• Automated procurement
• Controlled material flow
• Reduction of inventory and capital expenditure
• Collective, instead of expensive individual orders

MODULAR HARDWARE

TOOLBASE® THINKS OF EVERYTHING FOR YOU

TOOLBASE®
CONTROL EL-9 PROFESSIONAL

The **Toolbase® Control EL-9 Professional** is a device for small businesses or an alternative control unit for complex systems. The big drawers with flexible partition variants allow a diverse use.

* Height plus monitor

TECHNICAL DATA
Depth: 725 mm
Width: 717 mm
Height: 1272 mm*
Capacity: 200 kg
Storage area: 3,24 m^2

Software
ATMS NG „basic"
Operation
Large touchscreen,
USB keyboard and mouse
Number of drawers
9 pcs. 100-compartments
(600×600×79 mm),
individually electronically locked

SYSTEM ADVANTAGES
• Intuitive, modular design software
• Individually electronically locked compartments
• Versatile use through flexible dividing options

OPTIONAL
• Barcode-reader
• Master data maintenance

TOOLBASE®
CONTROL EB-60 PROFESSIONAL

The **Toolbase® Control EB-60 Professional** includes both the controller as well as the device with 60 boxes. It impresses with its easy handling and can be expanded by various software modules to a machine with a wide range of possibilities.

* Height plus monitor

TECHNICAL DATA
Depth: 725 mm
Width: 717 mm
Height: 1272 mm*
Capacity: up to approx. 5 kg
Storage area: 3,6 m^2

Software
ATMS NG „basic"
Operation
Large touchscreen,
USB keyboard and mouse
Storage areas
8 compartments / Box
Number of boxes
60 pcs (145×375×55 mm),
individually electronically locked

SYSTEM ADVANTAGES
• Easy to use
• Reasonable purchase price
• Targeted access to individual boxes
• Suitable for rental tools

OPTIONAL
• Barcode-reader
• Master data maintenance

Load capacity with even load | Technical changes reserved

![TOOLBASE logo]

TOOLBASE®
CONTROL AR-18 PROFESSIONAL

The front-offset control allows ergonomically access to the touch-screen-Monitor. PC, touchscreen, Trackball-keyboard as well as **Toolbase® Software** ATMS NG „basic" are included.

TECHNICAL DATA
Depth: 1272 mm
Width: 1390 mm
Height: 1920 mm
Capacity: depends on the
respective configuration

Software
ATMS NG „basic"
Operation
Large touchscreen,
USB keyboard and mouse
Storage areas
120–1.080 product compartments depending on the flexibly adjustable separators

SYSTEM ADVANTAGES
• Ergonomic access to the Touch Monitor
• Product compartments and levels are configurable and changeable

OPTIONAL
• Barcode-reader
• Master data maintenance

TOOLBASE®
CONTROL AK-108 PROFESSIONAL

The control for the **Toolbase® AK** is integrated directly in the machine. Included are PC, touchscreen, trackball keyboard as well as Toolbase® software ATMS NG "basic". An intelligent thrust mechanism conveys the selected article forward, so that it falls into the padded removal shaft.

TECHNICAL DATA
Depth: 972 mm
Width: 1221 mm
Height: 1840 mm
Storage area: 7,95 m^2

Software
ATMS NG „basic"
Operation
Large touchscreen,
USB keyboard and mouse
Storage areas
108 push trays

SYSTEM ADVANTAGES
• Easy to use
• More capacity than commercially available spiral automats
• The push mechanism can be customized to the respective types of packaging of the stored

OPTIONAL
• Barcode-reader
• Master data maintenance

TOOLBASE®
EL-12 PROFESSIONAL

The **Toolbase® El-12 Professional** creates an overview and order with its large capacity. The 12 drawers can be individually configured on request and loaded with up to 200 kg per drawer. High-quality materials can be stored in optionally available, individually lockable compartments. These only open for authorized persons.

TECHNICAL DATA
Depth: 725 mm
Width: 717 mm
Height: 1272 mm
Capacity: 200 kg per drawer
Storage area: 4,32 m^2

Number of drawers
6 pcs 75 drawers
(600×600×54 mm)
+ 6 pcs 100 drawers
(600×600×79 mm)
Individually electronically lockable

SYSTEM ADVANTAGES
• Large capacity
• Individually configuration possible on request
• Electronically lockable drawer option available

OPTIONAL
• Individually lockable compartments (flaps) or individual
• Drawer configuration possible

TOOLBASE®
EL-56 PROFESSIONAL

The **Toolbase® EL-56 Professional** is a machine with 56 high-quality, rail-mounted drawers (Useful volume: 115 × 600 × 54 mm), which provide clear and access-protected storage. The high quality workmanship allows a load of up to 20 kg per drawer. Through the proven drawer system, easy handling guaranteed.

TECHNICAL DATA
Depth: 725 mm
Width: 717 mm
Height: 1272 mm
Capacity: 20 kg per drawer
Storage area: 3,86 m^2

Number of drawers
56 drawers
(125×612×75 mm)
individually electronically locked
Effective volume
115×600×54 mm

SYSTEM ADVANTAGES
• Restricted access increases removal security
• Targeted access to individual drawers
• Ensures clear, access-protected storage
• Single, electronically locked drawers

TOOLBASE®
EB PROFESSIONAL – THE BOX SYSTEM

Sturdy plastic boxes are used to store high-quality individual items as well as inexpensive C-items. The Boxes of the **Toolbase® EB** are available in three sizes for various applications. The Toolbase® EB impresses with its simplicity and universal application possibilities.

SYSTEM ADVANTAGES
• Easy to use
• Favorable purchase price
• Targeted access to individual boxes
• Suitable for rental tools

TECHNICAL DATA

TOOLBASE EB-60 PROFESSIONAL
Depth: 725 mm
Width: 723 mm
Height: 1272 mm
Capacity: up to approx. 5 kg
Storage area: 3,26 m²

Number of boxes
60 (145×375×55 mm)
Individually lockable
Storage areas
max. 8 compartments per Box

TOOLBASE EB-33
Depth: 725 mm
Width: 807 mm
Height: 1550 mm
Capacity: up to approx. 7,5 kg
Storage area: 3,36 m²

Number of boxes
33 (226×450×105 mm)
Individually lockable
Storage areas
max. 10 compartment per Box

TOOLBASE EB-44
Depth: 725 mm
Width: 731 mm
Height: 1550 mm
Capacity: up to approx. 7,5 kg
Storage area: 2,94 m²

Number of boxes
44 (142 x 470 x 105 mm)
Individually lockable
Storage areas
max. 10 compartment per Box

TOOLBASE EB-76
Depth: 725 mm
Width: 723 mm
Height: 1550 mm
Capacity: up to approx. 5 kg
Storage area: 4,13 m²

Number of boxes
76 (145 x 375 x 55 mm)
Individually lockable
Storage areas
max. 8 compartments per Box

TOOLBASE®
ES-40 PROFESSIONAL

The locker system **Toolbase® ES-40** is perfect for the dispensing of bulky or other large items. From it you can optimally provide access to safety helmets, work clothes etc. Extended with an integrated power connection you can have electric hand tools always readily available.

TECHNICAL DATA
Depth: 600 mm
Width: 1020 mm
Height: 1940 mm
Capacity: up to max. 15 kg

Removal
Automatic control
Number of compartments
14–40, depending on the chosen compartment size

SYSTEM ADVANTAGES
• Easy handling, optical Control System
• Optimal storage for bulky Articles like helmets, shoes, protective clothing
• Charging possibility for electrical Hand tools optional
• Individually configurable

TOOLBASE®
AK-57/AK-108 PROFESSIONAL

The specialist for the single issue is **Toolbase® AK**, the ideal storage system for non-sensitive articles with compact dimensions. The Toolbase® AK manages up to 108 different articles. The prerequisite is a compact, sturdy repackaging of the individual parts. An advanced intelligent thrust mechanism pushes the selected article forward, so that it falls into the padded removal shaft.

TECHNICAL DATA

TOOLBASE® AK-57
Depth: 725 mm
Width: 723 mm
Height: 1272 mm
Storage area: 1,80 m²

Storage places
57 push compartments

TOOLBASE® AK-108
Depth: 972 mm
Width: 1221 mm
Height: 1840 mm
Storage area: 7,95 m²

Storage places
108 push compartments

SYSTEM ADVANTAGES
• Easy to use
• More capacity than commercially available spiral automats
• The thrust mechanics can be customized to the similar packaging of the the stored articles.

TOOLBASE®
AL PROFESSIONAL

The fully automatic **Toolbase® AL** is the optimal solution for the storage of similar articles. It allows a targeted access to individual Items. Automatically retractable drawers only give access to the number of selected compartments and not to the whole drawer. The items are released per compartment from front to back. Different drawer heights and widths can be individually combined. The stable mechanics guarantee longevity and makes it the highest quality and most robust system of the whole Toolbase® line.

TECHNICAL DATA
Individual design according to customer-specific requirements

TECHNICAL DATA
• Packaging-accurate removal and filling
• Variable drawer width
• Adaptable drawer height in 25 mm increments
• Targeted access to individual articles

TOOLBASE®
AR-18 PROFESSIONAL

With its compact dimensions, the **Toolbase® AR-18** is recommended particularly for the provision of health and safety articles such as gloves, skin protection etc. The individually customizable partitions can be adjusted to the products to be stored and allow a high level of storage flexibility. It is supported by an optical guidance system and a sliding door only allows the user to remove the previously selected article provided. This enables occupational safety articles to be available for use at any time. Toolbase® AR-18 is also optimally suited for the single issue of C-Articles.

TECHNICAL DATA
Depth: 1093 mm
Width: 1088 mm
Height: 1920 mm
Capacity: depends on the
          respective configuration

Removal
Automatically controlled
Storage places
120–1080 product compartment, depending on the flexibly adjustable separators
Standard
Three default configurations for different applications are available. A subsequent conversion of the compartments is possible.

SYSTEM ADVANTAGES
• Easy removal with LED lighting and automatic control
• Individual compartment size
• Controlled issue of high quality articles
• Occupational safety articles available for ready use by everyone

Toolbase dispenser with vertical pull-outs.

TOOLBASE®
EV PROFESSIONAL

TECHNICAL DATA
Depth: 757 mm
Width: 1000 mm
Height: 1950 mm

4 vertical pull-outs with
4 adjustable floors each
(Raster 50 mm adjustable height)

Capacity
200 kg per pull-out

SYSTEM ADVANTAGES
• To be equipped with different tool holders (HSK, ISO-SK, VDI and Capto C)

SCANNER PROFESSIONAL
Display, 19 keys
number keys, docking station

SCANNER BASIC
4 keys, + / - keys
docking station

TOOLBASE®
SCANNER PROFESSIONAL

With the **Toolbase® Scanner** for barcode warehouses, you keep track of your stock levels even in storage bins outside of Toolbase® dispensers. Bookings by scanner can be easily transferred to the ATMS NG software. You can allocate cost centers and benefit from automated scheduling.
